

Tutor Toolkits

What are Tutor Toolkits?

They are a set of tools and resources prepared for tutors/educators who are interested in using ENeA SEA e-Learning modules as part of their teaching or curriculum. With these toolkits tutors/educators can enhance student learning experience in early nutrition.

Which Tools can I use for my Students?

Question Bank

The question bank provides sets of questions related to the ENeA SEA modules - including multiple choice, true/false and open-ended questions.

Case Studies

This toolkit provides scenario-based case studies that can be used as trigger materials for face-to-face discussions or preparatory study materials for face-to-face sessions.

E-Learning Tools

This toolkit offers information about useful, easy to use e-Learning tools that can be used to facilitate interactive learning in a face-to-face teaching session or self-directed learning setting.

How to Start?

The **Tutor Guide** provides detailed information on how to use the Tutor Toolkits.
